RUSHVILLE GIRLS ARE RESCUED FROM SHIP STRANDED ON ROCKS

MESSAGE RECEIVED HERE SAYS "SAFE"

This is Only Cablegram Sent by Miss
Henrietta Coleman, But it
Was Enough

TO RELIEVE FEARS HERE

Miss Genevieve Brown and Miss
Helen Scott Also in Party Sailing
From New York, June 20.

The Anchor line steamer California, bound from New York to Glasgow, on which a party conducted by Miss Henrietta Coleman of this city sailed from New York Saturday, June 20, went ashore last night on the rocks off Tory Island in a thick fog and rain, according to a dispatch this morning from Londonderry. The dispatch says the passengers were in no immediate danger last night.

In Miss Coleman's party are Miss Helen Scott of Clinton, Ind., supervisor of music in the Rushville schools; Miss Genevieve Brown of Akron, Ind., a teacher in the Rushville high school; Miss Carrie Ong, teacher of English in the high school at Columbus, Ind., who is well known and related here; Miss Zuella Raber, of Wolcottville, Ind., sister of O. L. Raber who taught in the high school here and Mrs. A. V. Bird of Greensburg.

Mrs. Emily Coleman and son, Dr. Will S. Coelman, received a cablegram about noon from Henrietta, which contained the one word, "safe." It read:

"Cassandra via Malin Head, Coelman.—Safe, Henrietta. 10:51 a. m."

The collision of the Empress of Ireland and Storstad took place in the St. Lawrence river just before the members of Miss Coleman's party left their homes for New York, but it did not deter any of them. There were three Anderson young women however, who had about planned to accompany the party, and they decided after the accident in the St. Lawrence not to accompany Miss Coleman and her friends. They told Miss Coleman the mishap had caused them to change their mind so suddenly.

According to the dispatch, wireless calls for help brought speedy assistance from several small gunboats and torpedo boats which were patrolling the northwest Irish coast for gun runners in connection with the Ulster movement.

The latest news received here is that the California is stuck fast on the rocks, but is in no immediate danger. It struck with such force that the lower part of its bow was crushed badly and it is taking water through two holes in its forehold and second hold.

The steamer, which has on board 121 saloon and over 300 second cabin passengers, lies in five fathoms of water forward and seven fathoms aft.

The passengers and crew are still on board. There was no panic when it struck.

Another liner, steamers and gunboats are standing by and others will arrive during the night.

The Rev. George Moffett of Pendleton will give an illustrated lecture at the town hall in Raleigh Thursday night.

PASSENGERS TAKEN OFF ON CASSANDRA

Most of Them Arrive in Londonderry, Ireland, Having Suffered
Nothing From Accident.

1,016 ABOARD THE CALIFORNIA

Wireless This Afternoon Says Whole
Forward Part of Vessel is
Stove in, But She May Float.

PASSENGERS ARE SAFE

(By United Press.)
London, Eng., June 29.—Wireless brought word today of the safe transfer of 1,016 passengers from the liner California to another vessel after the California stranded off the north coast of Ireland. The liner is in a dangerous position.

Henrietta Coleman, a Rushville, Ind., teacher, and Miss Carrie Ong, high school teacher of Columbus, Ind., were among the passengers rescued from the California.

(By United Press.)

Londonderry, Ireland, June 29.—Hard and fast on the rocks of Tory Island off the coast of county Donegal, Ireland, the anchor liner California still hung today, surrounded by fog, while her 1,016 passengers, taken off by British warships, without loss of life, were landed here or are on their way to Glasgow, aboard the Donaldson liner Cassandra. Three hundred of the passengers were landed here.

Wireless from the California this afternoon said the whole forward part of the vessel was stove in by the crash but it is expected she will be floated.

Capt. Coverly and his crew were still on board and several British torpedo boats which came to the rescue with the first S. O. S. were still standing by.

The California left New York June 20 for Glasgow. If the vessel is gotten off the rocks she will probably be taken to Glasgow for repairs.

RUSH LEADS STATE IN SALE OF HOGS

Statistics Show That 81,087 Pkers
Were Sold From This County—
Henry County Second.

LARGEST NUMBER DIES HERE

Statistics on hogs in Indiana reveal the fact that more hogs were sold, a greater price was received and more died in Rush county in the last fiscal year than in any county in Indiana. Henry county is second. Following is the report for the two counties, together with some state figures:

County	No. sold	Price	No. died
Rush	81,087	1,245,947	23,611
Henry	72,778	935,947	16,214
Henry county lost		\$279,113	
by hogs dying, while the loss in Rush county was		\$362,665.	

In the whole state the number sold was 2,607,256, for \$33,354,896. The number that died is given as 562,542, and their value \$7,194,912.

FARMER'S WAGON IS HIT

Albert Sage Killed and Grandson
Fatally Hurt Today.

(By United Press.)
Bedford, Ind., June 29.—Albert Sage, a farmer, age 65, was killed today and Loren Pierce, age 14, his grandson, was fatally injured when their wagon was struck by a C. T. H. & S. train near Heltonville.

PLAN TO BRING MORE ATTRACTIONS

Meeting of Business Men Will be
Held Tonight to Consider Fourth
of July Celebration.

ADVERTISED EXTENSIVELY

A meeting of business men who would be interested in bringing additional attraction here for the Fourth of July celebration are requested to attend a meeting in the Chamber of Commerce headquarters this evening. The men who are promoting the Fourth celebration have an opportunity to get something in addition to the Italian fireworks display which has already been arranged for the night program at the ball park, but they want to know how the business men feel about it.

Extensive preparations are being made for the big fireworks display. The county and towns in adjoining counties are being advertised thoroughly. It is believed the Fourth this year will bring a large crowd to Rushville.

SHERMAN ONEAL IS GENERAL MANAGER

Elected to This Office Because of
National Gate Co.

IS ACQUAINTED WITH TRADE

Sherman Oneal, of the firm of Oneal Brothers, Saturday was elected general manager of the National Gate company at a meeting of the board of directors. His excellent business ability and his well known qualifications for the place moved the directors to place him in this office. He has had an experience of twenty years in the fence and gate business. Mr. Oneal has known the National Gate company's business since it came here three years ago, and is well acquainted with the different gates and patents. Oneal Brothers have been handling the gates for more than two years and know their selling qualities.

Mr. Oneal has been traveling over the state buying furs for twenty years and knows who the dealers in gates and fences are. Because of his large acquaintance he will be able to get in with the trade. He understands the methods necessary to put farm gates on the market through dealers, jobbers, lumbermen, hardware men and other agencies.

The company has just established a general agency embracing a block of counties in Michigan and has plans matured for establishing similar agencies throughout the ten states controlled by the National Gate company.

A nine and a half pound baby girl was born to the wife of Tom Cauley yesterday evening.

TWO ARE KILLED BY TRAIN

Buggy Demolished, but One Occupant
Escapes Death.

(By United Press.)
Warren, O., June 29.—Mrs. Thos. Winchell, age 27, of Green, Ohio, and Glen Davis, age 14, Warren, O., were killed today, and the dead woman's husband fatally injured, when an Erie train demolished their buggy.

DEATH EARLY TODAY IS RATHER SUDDEN

Mrs. W. M. Blacklidge, Age 59 Years
Dies of Pelvic Tumor at Her
Home Northeast of Here.

FUNERAL WILL BE TUESDAY

Mrs. Olive Catherine Blacklidge, 59 years old, wife of William Marshall Blacklidge, died this morning about three o'clock at her home northeast of the city. The death of Mrs. Blacklidge, while rather sudden, had been expected by the family. She had been ill for over a year and last night was considerably worse. She passed away rather suddenly and death is believed to have resulted from a pelvic tumor.

Mrs. Blacklidge was a well known and highly respected woman. She was a member of the Main Street Christian church and is survived by her husband and one son, Allen Blacklidge. The funeral services will be conducted Tuesday afternoon at three o'clock at the late residence by the Rev. C. M. Yocum and burial will take place in East Hill cemetery.

QUESTIONS TO BE SETTLED TUESDAY

Meeting Will be Held to Determine
Location of Playgrounds and
Method of Management.

\$104 TAKEN IN AT LAWN FETE

A meeting will be held in the court house tomorrow afternoon to make final arrangements for the public playground. At that time a location will be determined on, committees will be appointed to carry out the plans and some definite arrangements will be made for an organization to operate the play grounds.

There is a movement among the women to divorce the playground from the Rushville Social Service and Civic Improvement association, which had agitated the undertaking, and form a separate association with the sole purpose of advancing the playground cause.

Some persons have expressed the desire that the playground be located at the gun and country club grounds, but there is considerable opposition to this. J. D. Case says he took subscriptions to the fund with the understanding that the playgrounds be in the city park.

A total of \$104 was taken in at the lawn fete benefit Saturday night, but it is not known yet how much was made clear for the fund. A. P. Wagoner's orchestra of twelve pieces played.

James E. Watsons' Sunday school class will be entertained tonight by Mrs. Grant Gregg at her home in East Seventh street.

TOO MANY NOW REMAIN BABIES

Rev. C. M. Yocum Says Lots of
Christians Never Add a Virtue
After Joining the Church.

HIS SERMON ON ADDITION

"Call to Service" is Subject at First
Baptist—"Conscience and Conscientiousness," at M. E.

Too many Christians remain babies, said the Rev. C. M. Yocum in a sermon at the Christian church last night on "Addition," in likening the church to the story of a baby, born into a home, that never grew. The Rev. A. D. Batchelor preached another sermon in a series on the conscience, declaring that it is a great thing to live conscientious. The Rev. S. G. Huntington preached at the First Baptist church on "God's Call to Service," using the parable of the two sons to illustrate it.

Main Street Christian

The sermon subject at the Main Street Christian church yesterday morning was "Addition." The text was II Peter 1:15. The Rev. C. M. Yocum said in part:

"A child fell out of bed one night and with the sudden awaking said, 'I must have gone to sleep too near where I got in.' Many Christians go to sleep in the church too near where they got in, hence the necessity for a sermon on addition. In our text Peter is talking about faith. He commends it as worthy, but insists that it is not sufficient in itself. He tells his auditors that they must give diligence to add certain virtues and graces.

"We need no admonition to be diligent in business; we are business men. We need no suggestion to be diligent in search of pleasure. 'Everybody's doing it.' But we do need to be admonished to be diligent in the greater business of the kingdom.

"What shall we add to our faith? Peter specifies certain things that are essential. Virtue which refers to courage and energy is necessary. We must be active christians; our faith must issue in good works. Knowledge to discern good and evil, knowledge of the work to be done and the way to do it is a requisite to efficiency. Self-control, moderation in all things is a worthy attainment. Patience, willingness to wait, not over-anxiety is also mentioned. All these relate to self. We must improve our own condition. We must also add Godliness—God-likeness—and brotherly kindness, and meet our every obligation to God and others. The list which began with faith now ends with love. Faith the beginning, love the end and object of it all. Love is the flower of the christian faith. These we must add and we shall add them by taking thought and by a constant practice of them.

"A child was born into a home. The parents were delighted. They called in their friends and neighbors and made merry. But the months and years passed and the child did not grow. Delight changed to sorrow; laughter to tears. They loved their baby better than all earthly possessions but they did not want it to be a baby always. Too many Christians have never added a single virtue to their lives. They are babies yet."

First Baptist

"God's Call to Service" was the subject of the sermon at the First Baptist church by the Rev. S. G. Huntington Sunday evening from the

Continued on Page 7.

NEW ISSUES ARE OPENED IN SUIT

For This Reason Case of Nora Camp
Against Elmer Hutchinson Has
to be Continued Today.

JUDGE SPRINGER ON BENCH

Judge Megee Grants Divorce to Oliver
Ramsey of Near Carthage—
Heard June 15.

The case of Nora Camp, formerly Nora Hutchinson, against Elmer Hutchinson, on a note demanding \$300, was continued today by Special Judge Raymond Springer of Connersville, when new issues were opened in the suit. The jury was called and it was expected to try the case today, but when new issues were made it was necessary to continue it and the case will not be tried this term of court.

Judge Springer sustained a demurrer to three additional paragraphs of the defendant's answer and the defendant was given time to file an amended answer to the complaint. Judge Megee was originally interested in this case and appointed Mr. Springer to try it. The jury was discharged and it is not likely that there will be a jury case this week as it is the intention of Judge Megee to adjourn court Friday for the summer.

Judge Megee granted a divorce to Oliver Ramsey this morning. He has had the case under advisement for over a week. In decree Agnes Ramsey is given her maiden name of Agnes Wright. Ramsey lives near Carthage and in his complaint alleged that his wife deserted him. The case hinged on a letter that Mrs. Ramsey received from a man in Indianapolis, which was found by Ramsey. The case was tried June 15.

The case of Andrew J. Province against George H. Bell, in which damages in the sum of \$200 is demanded, was sent to Hancock county on a change of venue. The case started here some time ago and it was found that Mille Odone, mother-in-law of Province, should have been a party to the suit and the case was continued in order that the plaintiff could file an amended complaint.

The motion for a change of venue was filed by the plaintiff and five days were given in which to perfect the change. The case is based on the warranty of a horse sold to Province by Bell.

Oil well pumps in Texas are now operated by electric motors.

IT LOOKS AS IF THE CAPE HAD COME TO STAY

Black satin lined with white is the material most favored for the summer cape; thin serge is popular too for daytime wear and for evening, of course, there are the various figured satins, soft silks, etc. No doubt one reason for the popularity of this garment is its adaptability to all days and occasions.

For motoring and carriage wear, the long, military cape of serge or cloth is becoming and practical; for street and general wear the long or short cape coat is favored with the vest or the crossing straps to hold it in place. The organdy collar appears on the cape as well as the coat or frock with equally good effect. This cape model, 8445, has a surprise closing vest and one of the new draped, hood collars. Dull blue

matelasse is used here with the collar of cloth and the wide girdle of black taffetas.

To make this model in size 36, it requires 4 1/4 yards of 42-inch material. A black satin cape is shown in the second illustration, 8456. This design also shows a vest of white moire; the collar and bottom of the cape are finished with circular ruffles. A practical and novel idea in this cape is the belt on the vest which encircles the waist, fastening in back with a button.

To copy in size 36, 3 yards of 42-inch satin or other material is needed.

Number 8445—sizes 32 to 44.
Number 8456—sizes 32 to 44.
Price of each pattern, 15 cents.

To obtain other pattern illustrated all out this coupon and enclose 15 cents in stamps or coin. Be sure to state number of pattern and size, measuring over the fullest part of the bust. Address Pattern Department, care of this paper.

UNCLEAN MILK IS DANGEROUS NOW

Greatest Chance of Contamination
at This Season, is Warning of
U. S. Department of Agriculture

ABOUT OPENING BOTTLES

Dairymen's Best Efforts Are Lost
Unless Their is Co-Operation
From Their Patrons

During the hot weather milk is particularly susceptible to contamination and for that reason the U. S. Department of Agriculture is issuing a timely warning to housewives: Beware of Unclean Milk!

When milk is delivered it should be put into the refrigerator at once. A very brief exposure to summer heat makes it unfit for use. If it is impossible to have the bottles put immediately into the refrigerator, provide on the porch a box containing a lump of ice. In planning a house, arrange to have the refrigerator set in the wall with an opening on the outside. It is always possible to provide locks for these boxes or refrigerator doors, and supply the milkman with a key. The interior of the food compartment should be wiped every day with a clean cloth thoroughly scalded as often as once a week. Under no circumstances should the drainpipe of an ice box be connected with a sewer.

Before removing the cap from a bottle of milk, the cap and the neck of the bottle should be washed and carefully wiped with a clean cloth. The cap should not be pushed down into the milk. It may be easily removed with a sharp-pointed instrument without injuring the contents. The bottle when once open should be kept covered and the milk should be kept in the original bottle until it is used up. The original cap should not be replaced, but instead an inverted glass may be put over the top of the bottle. The bottle when not in use, should of course, always be left in the refrigerator, and any milk that has been poured from it into another vessel should not be poured back. Onions and other foods having a strong odor, especially during the hot weather, very easily impart their distinctive smell to milk that is left in a covered receptacle.

Milk bottles should never be taken into a sick room for as they are usually returned to the milkman they may thus carry infectious diseases into other homes. Every milk bottle left at a house where there is an infectious sickness should be boiled before being returned. The best thing to do in such circumstances is to provide one's own milk bottles or covered dishes into which the milkman may pour the milk from his bottles. The duty of each individual to his neighbor in this connection is most important. The board of health may be called to disinfect milk bottles properly after they have been in a home where there is sickness.

In any case, bottles should be given reasonable care before they are returned to their owner. The practice of pouring vinegar or kerosene or other liquids into them temporarily when not in use should by all means be discouraged. The containers should be washed in cold water first and finally in warm water before they are returned to the farmer supplying the milk.

These little details of cleanliness are matters which can not be regulated by the Federal or the State Governments. Rules and regulations that require pure milk to be delivered to the home may be rendered valueless by the careless individuals in the home. The best efforts of the milkman or farmer to deliver first-class milk will amount to nothing unless individual housewives will co-operate for the good of the community.

SEA CRASH HAD COMIC PHASES

Two Fat Men, Wedged In Cabin Doorways, Pried Loose.

A SUFFRAGETTE HUMBLLED.

In Safety Scornful of Mere Man, In Peril Appeals to Him—No Harm Comes to Despairing Woman Passenger on the Liner New York In Spite of Ominous "Thirteens."

Facing the fate of the people lost on the Empress of Ireland, passengers on the American liner New York, which was in collision at sea with the Pretoria of the Hamburg-American line, chuckled in spite of themselves over several incidents which they witnessed aboard ship.

The passengers were still laughing, when the New York docked, over the sudden change of front on the part of a suffragette at the time of the collision. The woman had been conspicuous on the voyage from Southampton because she wore a large yellow sash over her shoulder bearing in large letters the motto, "Votes For Women." She was a tall, athletic woman and wore a severe tailor made costume. She exclaimed frequently during the trip: "Men! I spurn them!"

This exasperated some of the men passengers to such an extent that one of them stole her sash. This caused the suffragette much annoyance, but she was unable to trace the culprit to recover her property.

"Men, protect me!" She cries. After the collision she was the first woman on deck. She was much excited and as she ran about she cried: "Men, protect me! Is there no one here who will save a lone woman?"

In response to her appeal a small steward wearing a big life preserver ran up and exclaimed: "Calm yourself, lady. Have no fear. I will save you." His gallantry was not appreciated by one of the deck officers who came up at that moment and demanded in no uncertain terms to know what the steward meant by appearing on deck in a life preserver.

"Get below out of this," said the officer, and the steward speeded down the companionway after offering to give his life preserver to the suffragette.

Mrs. Meyer Cohen, wife of the manager of a music publishing company, gave up all for lost when she heard the warning cry of the steward, because it was her thirteenth trip across the Atlantic and because on the last trip her two prize dogs had won a total of thirteen medals in exhibitions in Monte Carlo, Paris, Nice, Cannes and other European cities. Besides, it was the thirteenth day of the month and Friday just scudding away below the western horizon. As soon as she was dressed Mrs. Cohen picked up the Russian leather cases containing Rosemary Red Rambler, a toy spaniel that had won eight prizes, and Mary Christina of Tipi, a Blenheim, which had won five. With a case in each hand she ran on deck, where she was assured that the danger was over and that she might go below safely.

Plight of Two Fat Men.

Two stout men owed their deliverance from tight places to Mrs. Cohen, who heard their calls for help, which had been ignored by other passengers. She found the two stout men, with life preservers over their clothing, jammed in the doorways of their cabins, which were on opposite sides of the alley.

In their hurry to get through they had wedged themselves so tightly that they could not move until the baker and his mate, summoned by Mrs. Cohen, arrived with two long staves from a flour barrel, which they used as levers to free the two men, who did not stop to thank them, but dashed madly to the deck.

HAS AN ABNORMAL MEMORY.

Youth, Known as "the Human Encyclopedia," Equal to Questions. Cleo Smith, a twenty-year-old "human encyclopedia" of Denver, submitted to rapid questioning for three-quarters of an hour by psychologists and others on geography and mathematics and made only one mistake.

One hundred questions heckled him as fast as they could with printed data before them. Smith's answers came quick and distinct.

At the conclusion of the examination Dr. Duren J. M. Ward of the Colorado New Psychological society said that Smith was possessed of what was known as a "spatial" memory and had a remarkable gift.

"What is the negro population of Atlanta?" was one of the questions asked Smith. His prompt answer tallied exactly with the last census figures.

Other questions he answered correctly related to the names of all the capitals of the world, their altitude and population, the population of every county seat in the United States, the total number of foreigners, number of counties, date of admittance and the number of manufactures in each state as well as the number of manufactures in Canada and every principal city of the United States.

FLASHES from the FILMS

FRANCIS X. BUSHMAN.

"WHEN THE LIGHTNING STRUCK" is a new two reel drama that is filled with thrills from the beginning to end.

Francis X. Bushman is now one of the greatest actors in the motion picture world.

In "Death's Witness" the girl and the detective unravel the mystery. In the morning the father was found dead. The son was asleep upstairs. His telltale shoes indicated a trip to the river, where stolen goods were found, among them a picture of his sweetheart. A letter on the dead man told of frequent quarrels with his son. Yet subsequent events proved the young man was not the guilty one.

SCENE FROM "WHEN THE LIGHTNING STRUCK."

There are two kinds of feminine love—one demonstrative and the other reserved. The latter was the love that made a husband doubt his wife's attitude toward him in "The Acid Test." He puts her to the test by leaving himself declared a bankrupt and pretends that he is ruined. His wife comes to his relief and assures him that her love is strong enough to sustain him in his hour of need, and she is willing to endure anything for his sake.

Johnnie Brown is ordered, much against his will, to the barber to have a close haircut in the release, "Willie's Haircut." Accompanying him is also a note asking the barber to have his father's razor honed. On the way Johnnie meets Willie Green, the adored child of a temperamental mother, who is compelled to wear long golden curls. The artful Johnnie persuades Willie to take the note to the barber for him. Willie, despite his protests, is shorn of his beautiful locks.

One of the big movie companies has just purchased a high speed, ninety horsepower, seven passenger touring car. This car is to be used in the big scene of a powerful new picture, in which it is driven at furious speed over a 1,000 foot precipice and smashed to smithereens. This is only one of many instances where the cost of a picture is enhanced and a large sum of money is thrown away to create an effect.

John Hay Cossar, a recent acquisition of the Essanay Eastern Dramatic Stock company, has had a long and varied experience in the theatrical profession. Among his early engagements was a starring tour of the United States and Canada as Michael Strogoff in the play of that name, closely following the late Frank C. Bangs. After that he was engaged by A. M. Palmer and Edwin Knowles in support of Mme. Janauschek in "The Great Diamond Robbery."

—Mr. and Mrs. Marshall McCollum and Mr. and Mrs. H. C. Smith of Indianapolis, and Clarence Wilson and Will Chatman of Shelbyville were Sunday guests at the home of Miss Ella Wilson.

Society News

Mrs. E. L. Eakins of Raleigh will entertain the C. W. B. M. of the Raleigh Plum Creek Christian church Thursday afternoon at her home there in honor of Mrs. J. D. Case of this city.

Miss Margaret Worster, daughter of Mr. and Mrs. Frank Worster, and William H. Beale were married Saturday night at the Main Street Christian church parsonage by the Rev. C. M. Yocum.

Mrs. O. P. Wamsley entertained Miss Georgia Morris of this city and Miss Minnie Miller of New Salem at six o'clock dinner Saturday night in honor of Mrs. Mamie Sanitor of New York City, who is visiting in this city.

Mrs. Charles Hinkle, Mrs. M. V. Spivey and Mrs. W. A. Green will entertain the Band of Workers of the First Presbyterian church tomorrow night at seven o'clock at the home of Mrs. Hinkle, corner of Seventh and Jackson streets.

MILLINERY MEN MET.

Chicago, Ill., June 29.—The Millinery Men's National association opened a 3-day session in the Hotel Sherman today with a business session in the forenoon and a sight-seeing tour this afternoon. The annual banquet will be held in the Hotel Sherman Wednesday night.

SET SPECIAL DAY.

Indianapolis, June 29.—The Woman's Franchise League of Indiana has set October 17 to be known as "Constitutional Convention Day." The league has determined to make every effort to arouse interest and enthusiasm in the constitutional project with the end in view of influencing the convention to decide for woman suffrage for Indiana.

The funeral services of Mrs. S. C. Conner, who died Saturday morning in Des Moines, Ia., were conducted this morning at the residence of Dr. F. G. Hackleman and burial took place in East Hill cemetery. The remains arrived here Sunday afternoon.

JOHNSON WINS FIGHT

Paris, June 29.—"Jack" Johnson still holds the heavyweight championship of the world. In a hard-fought battle at the Velodrome d'Hiver here Saturday night he easily defeated Frank Moran of Pittsburgh on point in a twenty-round contest. Moran was game and stubborn. He did most of the leading and made many friends.

Paid Fine

Albert Johnson was fined one dollar and costs this morning by Mayor Bebout when he pleaded guilty to the charge of public intoxication. The fine and the costs amounting to \$11 was paid by Johnson. He was arrested Saturday evening by Chief Rosencrane.

GAS EXPLOSION

Milwaukee, Minn., June 29.—Twenty-two men were injured today in an explosion of gas while working in the new city intake tunnel 100 feet below the surface of Lake Michigan.

The Daily Republican

The "Old Reliable" Republican Newspaper of Rush County.

Published Daily except Sunday by **THE REPUBLICAN COMPANY.**

Office: Northwest Corner of Second and Perkins Streets. RUSHVILLE, INDIANA.

Entered at the Rushville, Ind., Post-office as Second-class Matter.

TELEPHONE NUMBER, 1111.

Monday, June 29, 1914.

True To Its Instinct.

True to its instinct, the Indianapolis Star Sunday displayed under big headlines the fact that there were only thirty-one at the Republican county convention in Brown county Saturday, but hid in an obscure place the fact that the Progressive party had failed to register in the primary last week twenty-five per cent. of the vote cast in the 1912 election and therefore was disqualified for participating in the 1914 election, under a state law.

This means that the Progressive party's candidates will not be allowed the privilege of placing their names on the general election ballot this fall, yet we read daily in the Indianapolis Star that the Progressive party is gaining ground steadily and that it expects to make a much better showing than in 1912.

The Star says that the Progressives cast only 2,430 votes in last week's primary, but does not mention the vote of the Republicans and Democrats, evidently fearing the comparisons. But the primaries of North Dakota do not tell a new story by any means. It's the same old story repeated, as it was in Maine, Pennsylvania, Indiana and a half dozen other states.

With a great flourish, the Star announced with some glee the fact that under a very similar law in that under a very similar law in Louisiana the Republican party had been disqualified, which is not much of an accomplishment at that because the Republicans are doing well to elect a township road supervisor in the south.

But to show the spirit of Progressive leaders toward the Republican party, this incident serves the purpose. The Star announces in its dispatch from Grand Forks, N. D., that leading Progressives will test the law which prevents their ticket from being placed on the general election ballot. In other words, a law, when it works to the advantage of the Progressive party, is a very fine law, but when it is disadvantageous to the Progressives, an attempt will be made to decide it unconstitutional.

By the same token, George Perkins, Bull Moose paymaster and organizer of trusts, is an angel in the Bull Moose party, but out of the party he would be a scoundrel, a bandit, a thief and a robber.

TRIAL IS SET.

(By United Press.)

Fort Wayne, Ind., June 29.—Jail life agrees with Tony Trentmann, who is held charged with the murder of a negro waiter in the Hotel Anthony recently. When he was arraigned and a plea of not guilty entered for him he appeared in the pink of condition. His trial was set for October. Trentmann has put on weight in jail.

Watch for our AD in Tuesday's paper. The Hendricks Co., Tailors. 921.

We Are Readjusting on New Economic Basis

By Secretary of Commerce WILLIAM C. REDFIELD

LET us as we view the business situation neither minimize nor magnify it, neither localize it nor generalize it. Let us look at the facts as they are, not in their narrow and immediate and parochial significance. California is not in distress with her ABUNDANT CROPS. Kansas knows no weakness in the PRESENCE OF HER WHEAT. New York, with nearly EIGHTEEN HUNDRED MILLIONS IN HER SAVING BANKS ALONE, faces no immediate necessity.

WE ARE FREE FROM THE TERRORS OF AN INFLEXIBLE CURRENCY. WE ARE BECOMING FREE FROM THOSE WHO MISTAKENLY THOUGHT IT WOULD BE LONG PROFITABLE TO MONOPOLIZE. WE ARE READJUSTING OURSELVES UPON AN ALTERED ECONOMIC BASIS.

I hope, and I think I may say I believe, the DAY OF OPPOSITION is giving way to the DAY OF COMPREHENSION. I do not mean that law is to be less strong or the insistence upon obedience to law less firm, but that there is coming into the minds of all a greater sense of their essential relationship and that we shall turn ere long from the industrial and transportation contests which have so engrossed us to other questions of equal or greater importance and shall come to wonder ere many years pass that we did not sooner see how much easier, better and more profitable it was to work together.

Better to Have Men and Women Teachers

By FREDERICK J. GOULD, Lecturer of Moral Education League, London, England

IT is very well to have children under the care of women till they reach the age of twelve, but after that the faculties should be proportionately mixed. In this way the schools would correspond to life. Men and women must live together in the world, and it would be better to have both men and women do the teaching.

YOU AMERICANS HAVE MANY LITTLE IMPROVEMENTS AND CONVENIENCES IN YOUR SCHOOLS WHICH YOU TAKE AS A MATTER OF COURSE, BUT WHICH STRIKE FOREIGNERS AS EXTRAORDINARY. FOR INSTANCE, THOSE BUBBLING FOUNTAINS. WE HAVE NOTHING LIKE THAT IN ENGLAND. EVERY CHILD MUST DRINK FROM ONE SPIGOT AND FROM THE SAME CUP. THE FOUNTAINS ARE MUCH MORE SANITARY AND BETTER TO LOOK AT.

I like the decorations in your schools too. I was pleased to notice good pictures on your walls, statuary in the halls and other ornaments. Your classes are relatively small, and your rooms are large and cheerful. You give each pupil a desk to himself. This is a good thing, as it gives him a feeling of self respect and importance.

Need More Than Police Force In Alaska

By Secretary of Interior FRANKLIN N. LANE

PRACTICALLY all the lands and natural resources of Alaska are still the property of the United States. Until now we have only protected these riches against monopoly and waste, and the most cumbersome departmental machinery has sufficed.

HERETOFORE WE HAD DONE LITTLE MORE IN ALASKA THAN KEEP A FEW POLICEMEN STATIONED AT CLOSED DOORS TO PREVENT BREAK-ING AND ENTERING. NOW THAT WE ARE TO OPEN THE DOORS WE NEED MORE THAN A POLICE FORCE. MINERAL AND OTHER RESOURCES MUST BE OPENED TO USE; THE LAND MUST BE OPENED TO SETTLEMENT. THERE MUST BE SUCH ADMINISTRATION OF THE LAWS AS WILL GIVE PROMPT AND READY ASSISTANCE, UNHAMPED BY RED TAPE AND UNNECESSARY DELAYS, TO SETTLERS.

By American Press Association.

Millions of Cheap Autos In Ten Years

By Dr. CHARLES P. STEINMETZ, Electrical Expert

THE requirements of the automobile of the future are not high speed, but rather a pleasure car which will be light and run not more than twenty miles an hour.

The high powered car will have a place in the future, but this place will be to travel across the country to places not reached by the present Pullman car, and this car of the future will be owned by well to do people who will join the users of the electric car for all town service.

THIS CAR MUST HAVE A LIGHT BATTERY, LIGHT MOTOR, LIGHT CONSTRUCTION, A SPEED OF TWENTY MILES AN HOUR, WITH THE ABILITY TO TRAVEL FOR A RADIUS OF THIRTY MILES, AND BE SOLD FOR LESS THAN FIVE HUNDRED DOLLARS AND AT THE SAME TIME BE MAINTAINED FOR FROM TEN TO FIFTEEN DOLLARS A MONTH. WHEN THIS CAR IS MADE, WHICH IT WILL BE IN THE NEAR FUTURE, THERE WILL BE MORE THAN A MILLION OF THEM IN USE IN THIS COUNTRY IN THE NEXT TEN YEARS.

Women's Pace Fast; Men Will Save Them

By OWEN JOHNSON, Novelist

WOMEN OF TODAY ARE TRAVELING THE PACE SO FAST THAT THEY ARE BECOMING AGNOSTIC, AND THE CHURCH PEWS OF THE NEXT GENERATION WILL BE FILLED ENTIRELY BY MEN. WOMAN'S YEARNING FOR EXCITEMENT IS CAUSING HER TO REVOLT SOCIALLY, INDUSTRIALLY AND MORALLY. MEN HAVE LONG SINCE SLIPPED OUT FROM UNDER THE INFLUENCE OF THE CHURCH. THE WOMEN ARE NOW ASSUMING THE SAME ATTITUDE. THEY HAVE CEASED TO STAND IN AWE AND FEAR OF THE CHURCH.

The trouble is that women are GOING TOO FAST. The men are going to stop the women if they are stopped. We men are going to see that it will be necessary for us to get back under the mantle of religious faith. We are going to see the need of setting an example for our wives and daughters. I predict that the next generation will see the MEN CLOSER TO THE CHURCH than they are now and that the WOMEN WILL BE FURTHER AWAY.

WOMAN MAY WRITE OF THE CANDIDATES' HAIR

(Special to the Daily Republican)

Indianapolis, Ind., June 29.—The Democratic state committee it is announced, has employed a woman newspaper writer to prepare "feature" articles about the Democratic state candidates. It is presumed that she will endeavor to inform the voters of Indiana regarding the color of their hair, and their eyes, and the number of children they have and what they eat for breakfast, and something about their diversions.

The Democratic state committee has not yet selected anyone to explain to the voters of Indiana why they have created new and expensive offices, and why the Democratic tariff bill has demoralized the commercial and agricultural conditions of the country. They have not yet chosen anyone to tell the laboring men of Indiana why employment is so scarce, and why thousands and thousands of working men have been thrown out of employment, since the government of this country has passed from control of the Republican party.

To Women Who Overdo

Thousands of American women in our homes are daily sacrificing their lives to duty. In order to keep the home neat and attractive, the children well dressed and tidy, women overdo. Soon a weakness or displacement is brought on and they suffer in silence, drifting along from bad to worse. For forty years Lydia E. Pinkham's Vegetable Compound has proved a boon and a blessing to women in this condition, by restoring their systems to a normal healthy condition. Why don't you try it? (Advertisement.)

ARCADIANS WIN IN TENTH FRAME

Quiesser Drives in Deciding Run With Smash to Left Field Bust-ing up Interesting Game.

COLLEGE HILL SCORED FIRST

Game Had All Thrills of Regular Battle Including Lot of Trouble With Umpire.

The Arcadians were forced to go ten innings with the College Hill team of Cincinnati yesterday afternoon but finally won out 4 to 3. The game was one of the most interesting seen on the local lot for some time, a little of everything being mixed up in the sport, including a lot of kicking on the umpiring.

Umps Snyder had a bad day with the fans and quit the game in the sixth inning. The fans thought he was giving the Arcadians a little the worst of the argument and Snyder stood the racket until the sixth when he left the field. Davy Davidson, manager of the Cincinnati Superbas, took up the work and finished the game, getting by in fine style.

The College Hill team looked like a bunch of kids out of a Sunday school league but they deceived their looks as they played good ball and made the Arcadians extend themselves to grab off a win. The team had a good pitcher in Franks and the Arcadians could do nothing with him until the sixth inning. In fact neither team scored until this inning.

The Arcadians played good ball behind Johannes and several sensational catches saved the team from defeat. Peck Orme, who played right field for Rushville pulled the circus catch of the day when he took a fly with one hand that looked good for some extra bases.

The College Hill bunch was the first to score, counting one in the first of the sixth. After two were down Franks singled and stole second. Bauer singled and Franks scored. Bauer was caught stealing. Up until this frame the College Hill team had not been able to hit Johannes when hits meant runs and he kept the hits well scattered. In the last of the sixth the Arcadians scored two runs and took the lead. The two runs came after two men were down and were the result of singled by Todd, Pierce and Johannes.

The Arcadians added another in the seventh and then College Hill tied the score in the eighth when they scored two more runs. Neither team scored in the ninth and the fans sat back to watch an extra inning contest. Johannes let the visitors down

Stolen bases—Franks, Branson, Royter and Bridges. Hit by pitcher—by Franks, Quiesser; by Johannes, E. Franks. Umpires, Snyder and Davidson. Time, 2 hours.

in order in their half of the tenth and then with one man out Quiesser sent the winning run over the pan with a hit to the wire netting in left field, ending the game. Spellman was safe on Branson's error and Bridges went out. Then came Quiesser with his smash. The hit was good for three bases and spellman came home with the deciding run.

The game was the second extra inning contest of the season and the two came right in a row. The game was interesting throughout and the Arcadians played ball all the time. While Johannes was touched up for eight hits they were scattered and outside of one or two innings he pitched nice ball and deserved to win.

TO GIVE MINSTREL IN GREENSBURG

Home Talent Show Which Was so Popular Here Last Week Will be Reproduced there Thursday.

FEW CHANGES WILL BE MADE

The Cabaret Minstrel, given by the Kappa fraternity and the Psi Iota Xi sorority, which made such a hit in this city for two nights, will be shown in Greensburg Thursday night, at the K. of P. opera house. The final arrangements were completed yesterday afternoon, and the Kappa chapter in Greensburg will have charge of the sale of tickets.

The show will probably make a great hit in Greensburg, as it did in this city, as all of the jokes will be made to fit the Greensburg populace. The "Almost" song will take good as the names have been well chosen. The stage setting will be the same as given in this city, with the exception that three or four more tables will be added to the cafe. The show troupe will make the trip in automobiles.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

ELIMINATION TRIALS START

Exhibition Races Preliminary to 300

Mile Sweepstake Event July 4,

Were Under Way Today

70 MILE AN HOUR TO QUALIFY

Event Will be Run on One of Finest

Natural Tracks in Country.

Course is Two Miles

(By United Press.)

Sioux City, Ia., June 29.—On a two-mile course pronounced by many famous drivers the finest natural track in the world, the elimination and exhibition races preliminary to the 300 mile sweepstake event of July 4, began today. Under the rules of the American Automobile Association, all cars entered must qualify at 70 miles an hour for one full lap before being permitted to compete for the \$25,000 purse, and only 27 cars can start in the final race.

As just that number have entered and all the cars are fast it is expected that all will have no difficulty in qualifying for the big meet, which is scheduled to start promptly at 11 o'clock Saturday morning. Incident to the preliminaries the Savage Brothers, who have an aviation school near the speedway will put on some exhibition flights. Only a nominal admission is charged for the preliminary events and then, to make sure of an absolutely perfect course for the main event, the track will be closed until the start of the race and every inch of its surface will be gone over by experts.

The course is a two-mile banked track with steel rail outside and enclosed by a high board fence. Six grand stands with a seating capacity of 30,000 and bleacher and parking space to accommodate as many more are provided, while twenty-seven racing car pits occupy a position immediately to the left of a commodious judge and press stand. Big score boards are erected at convenient places and four motion picture towers are so situated as to cover the entire course with the eye of the "movie" camera throughout the entire race.

The track is directly across the Big Sioux River from Sioux City's thousand acre Stone Park and the bluffs of this park promise to tempt hundreds of those who are unable to dig up the necessary admission fee. Between the track and the river is a grove in which parking and camping space is furnished to those who journey to the city by auto. A spur of the Milwaukee railway has been constructed for the six minute service which is promised from the city while the trolley line is installing provision for the handling of enormous crowds though it's nearest approach to the track is about three quarters of a mile from the entrance.

The hotel capacity of the city was sold out a week ago and the Commercial club had to appoint a special committee to call upon the householders of the city to take in roomers that the visitors might be provided for. Many who came in pullman's retained lodging in the cars which were parked near Riverside park a short distance from the speedway, while many others came prepared to camp on the ground.

MORIARTY, BASE STEALER.

Jennings and Cobb Say Detroit Captain Is Best Puffer In Game.

Manager Hugh Jennings considers Moriarty one of the best base runners he has seen in his twenty or twenty-five years in professional baseball. Jennings has often said that if Moriarty possessed the speed that belonged to Davy Jones he would make a hundred base thefts in a season. Crawford, of the same opinion, says:

"If George Moriarty possessed the speed that belongs to Ty Cobb or Clyde Milan or Eddie Collins he would set a base stealing record for the major leagues. Moriarty is the best man I have ever seen at 'pegging a pitcher.' By 'pegging a pitcher' I mean telling beforehand what he is going to do, where he is going to throw the ball. Moriarty studies the pitchers more than any other player. He can watch a pitcher a couple of times and then tell, nine times out of ten, whether he is going to throw to one of the bases or the catcher."

Moriarty is crafty. That fact is well known. When he gets on first base his entire attention is focused on the pitcher. The chances are he will take a long lead to draw a throw, but instead of being set to go on to second he is set for the slide back to first, and

Photo by American Press Association.

GEORGE MORIARTY.

it is a comparatively easy matter for him to beat the throw to the initial sacker.

There are pitchers in the American league who must have their throw to first. Moriarty knows these men, and he always works to have them get the throw off their minds. Accomplishing that, he takes a second lead away from first. The chances are this lead will lack two or three feet of what the first lead held, and the pitcher, glancing over, will note the decreased distance. The chances are he will make a mental note to the effect that the runner will not start a steal, and then, just as his arm moves in the pitch to the plate, Moriarty is off for second. The pitcher had failed to notice that in the seemingly careless attitude of the runner there were still the tenseness and the alertness that always precede the start of a base theft. There are other pitchers who signify their intentions by a raise of the foot.

ANOTHER JAP NINE COMING.

Miji Collegians to Play Forty Games in America.

Ralph Horr, graduate manager of athletic affairs at the University of Washington, has announced that arrangements have been completed for an American tour by the Miji university baseball team of Japan. Forty games have been scheduled. The Japanese players will arrive here July 2, and after playing one game with the University of Washington will go east. The first games after leaving Seattle will be Chicago. Returning to Japan the team will sail from Seattle Aug. 25. Next year the University of Washington baseball team will visit Japan.

MEN AND BOYS' CLOTHING
RUSHVILLE, INDIANA

THE BROAD, TIGHT GIRDLE GIVES A HINT OF THE NEW SILHOUETTE

For some time it has been whispered that the straight figure would shortly give place to old time curves; it is even predicted that there may be a suggestion of hips too, by the time winter arrives.

This taffeta frock with its broad girdle, looped-up, pannier-like, peplum certainly falls in with this idea; the quaint flaring skirt, with the ruffles at the bottom is another late design, decidedly different from the tight skirt of the last few seasons.

Taffetas is charmingly suited to this frock: one of the printed silks or a cotton crepe or voile would also be attractive for summer wear.

Taffetas is wide, averaging 38 to 45 inches; it is priced from about \$1.25 a yard and up.

This model may be copied in size 36, with 4 1/4 yards of 36-inch material for the blouse (No. 8386) and 2 1/2 yards of 42-inch material for the skirt (No. 8399) in size 24.

The Japanese collar, ruffle about the hips and the set-in sleeve makes this little afternoon dress (8380) distinctive. It is developed in a plain cotton voile with the collar and trimming bands of a figured crepe.

For a girl of sixteen, 4 1/4 yards of 36-inch material is needed.

Number 8386—sizes 34 to 42.
Number 8399—sizes 22 to 30.
Number 8380—sizes 14 to 18.
Each pattern, 15 cents.

To obtain either pattern illustrated fill out this coupon and enclose 15 cents in stamps or coin. Be sure to state number of pattern and size, measuring over the fullest part of the bust. Address Pattern Department, care of this paper.

New Waists Looks for All the World Like a Dressing Jacket

BY MARGARET MASON
(Written for United Press.)

No, No, Percy, Mazie's not
In her negligee.
It looks like a dressing sacque,
But the styles all say,
To be really up to date,
Girls must dress that way.
Goodness knows they may wear
soon
Nighties in the day.

New York, June 29.—Leaping lightly from blouse to basque butterfly Fashion has not settled on a type of waist which hangs loosely from shoulder to hip for all the world like a regular dressing jacket. One model especially of flesh color crepe de chine hangs from a square cut neck edged with a tiny ruching of pink picot ribbon. It is tucked in clusters to the normal waistline and then flares out in untucked fullness to just below the hips where it is finished with another ribbon ruching. The skirt is tucked in similar fashion to below the knees where it also flares out in a ruching-edged flounce to the ankles. The elbow sleeves are tucked down halfway to fluff out loosely over the elbow with the inevitable ruching.

Truly an ideal negligee for home use these broiling days, the uninitiated would exclaim but it's nay, nay, on the home stuff. This little pink and pretty confection is intended for wear out among the gaping multitude. It's certainly going to be a pretty tough proposition for a poor girl these days to decide whether she's undressed to go out or dressed to stay in.

Others of the model do concede more to the conventions and assume the indications of a girdle or sash loosely hung about the hips to save them from a too exact resemblance to a corseting jacket. The most approved of these hangs from the shoulders in a loose basque effect buttoned down the front and girdled about the hips with a wide crush sash of silk guilteous of bow or ends. From this hangs either a flounce of lace or silk, the straight skirt underneath falling to the ankles. Here, however, the general effect is ludicrously like a little girl's frock worn over a grownup's petticoat. Out of the frying pan of the dressing sacque likeness into the fire of a child's dress similarly seems to be unescapable stigma of this newest mode but in spite of this it is being flaunted numerously by the smartest dressers.

As for basques they are simply basking in popular fancy for the moment. Already they are creeping closer and tighter to the figure and corsetiers do say that a return of the hourglass figure and a rediscovery of the sixteen inch waistline is almost a certainty.

It was cinch to let out our waists but Heavens you can't help struggling over the inevitable struggles there will be to call 'em in again.

There's a perfect craze for je again as dress trimming for street and daytime wear. Particularly in the form of fringe for the edging of basques, capes and parasols. Sacque buttons are also very smart of jet trimmings tubular effects have replaced in novelty the gold globular jet beads and sequins. What an appropriate carrying out of the aquatic idea it is for a lady whose hair is done in a "waterfall" to appear in a costume all jetty. The waterfall fad of hair-fixing is struggling to the fore and forehead along with all other Victorian fashions. With soft curls bobbing in front of each ear and caught up in a loose knot behind there is no denying this coiffure is vastly more becoming than the universal peeled effect of the nonce.

And germaine to the subject of hairstyle adornment is the fact that no tortures of the inquisition were any worse than those endured by fragile flowers of femininity today when they cheerfully submit their heads for five and six hours to the slow suffering of having a permanent wave baked in their hair.

Of course it is done by electricity and the wave is guaranteed for one year. In this joyous season of ocean bathing the damsel cursed with sleek straight locks becomes a martyr of beauty. You can just bet

she isn't going to let the ocean have anything on her in the nature of waves. She hies herself to the hair-dressers and with Spartan fortitude has a wave put in her hair, crimp in her bank roll, and a kink in her nerves all at the very same sitting.

15 COMMITTEEMEN CANNED OUTRIGHT

Almost Half of Progressive County
Central Committee in Vander-
burg Fired Without Warning.

171 VOTES IN LAST PRIMARY

[Special to the Daily Republican.]
Evansville, Ind., June 29.—At a recent meeting of the Progressive county central committee of Vanderburg county, 15 of the 40 precinct committeemen of the county were "canned" without ceremony, and their successors it was announced, will be appointed. Since only 171 Progressive votes were cast in the recent Vanderburg county primary, it is expected that the professional Bull Moose agitators will have more or less trouble in finding acceptable men to fill these vacant positions.

The men who were let out failed to pay attention to the notices sent them, and had neglected to attend the meetings, and they were not warned in advance that they would be removed. Letters were mailed to them after the meeting telling them that they had been relieved of their "arduous" duties.

MAY PROVE FATAL

When Will Rushville People Learn
the Importance of It?

Backache is only a simple thing at first;

But if you find 'tis from the kidneys;

That serious kidney troubles may follow;

That dropsy or Bright's disease may be the fatal end,

You will be glad to know the following experience.

'Tis the statement of a Rushville citizen.

Samuel A. Brown, R. R. No. 10, Rushville, Ind., says: "I had a severe attack of backache and it got worse every day. Finally, the trouble got so bad that I could hardly raise my foot above the ground. When I stooped, I thought my back would break. Someone advised me to try Doan's Kidney Pills and I got a box. I was very much surprised at the prompt way in which they stopped the trouble. In a few days I was free from pain."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Props., Buffalo, N. Y. (Advertisement.)

Notice of Administration.

NEEDLEWORK

By
MARGARET LAWRENCE

A SIMPLE DESIGN FOR EMBROIDERING A MEDICI COLLAR.

A collar is a very important feature in one's dress as it often makes or mars a gown. These of course should always be kept fresh and to do this one needs a large supply, especially in the summer when the heat so quickly wilts the delicate fabrics.

A daintiness that makes it no less practical may be displayed in this collar with revers. This pattern, 14658, consists of the standing Medici which is very becoming to most people, and a flat collar with revers. These parts may be used separately or combined to form a stylish neckpiece. The Medici collar should be wired with invisible collar stays or fine milliner's wire. Dainty, sheer materials, such as organdie, fine lawn, net and hand-

kerchief linen, are used for making this style of collar, the design of which may be developed in solid work alone or combined with eyelets. The scalloped edge should be firmly padded and then worked in button-hole-stitch. White or colored mercerized cotton No. 25 or 30 should be used in developing this design.

When using net, do not try to stamp the design on the material but baste the pattern to the net and work over the paper and net. This gives a firm foundation on which to work, and it may be easily torn away when finished. If desired a lace edge may be added.

Guaranteed, hot-iron transfer pattern will be supplied to readers upon receipt of 10 cents.

TOO MANY NOW REMAIN BABIES

Continued from Page 1.

text, Matt. 21:28. He spoke in part as follows:

“The parable of the two sons is simple. One of the sons, when bidden to work in the vineyard, rudely refused to obey his father; the other respectfully promised obedience. Both were called to service. The first afterward repented and went, but the second broke his promise and went not to the vineyard.

“The parable has three specific applications; first, to the scribes and Pharisees who, loud in their asseverations to service in God's vineyard, rejected the preaching of John and the baptism he administered, while the publicans and harlots from whom little if anything was expected accepted the message of John and were baptised by him.

“In referring to this parable Matthew Henry says: ‘In these verses we have the parable of the two sons sent to work in the vineyard, the scope of which is to show that they who knew not John's baptism to be of God were ashamed even by the publicans and harlots who knew and used it.’

“Secondly, the parable had its applications to the Jews and Gentiles nationally. The Jews, boasting of their allegiance to Jehovah, rejected His son as the Messiah. The Gentiles, making no such pretentious claims, became obedient unto the faith.

“Lastly, the parable has a most direct and personal application. It is this application in which we should be especially interested. An appeal to the conscience will prove God's call to service comes forcibly to everyone. To heed it merits the approval of God; to reject it, his disapproval. Those who say they will and do not are among the rejected ones; those who protest but repent afterwards are the accepted ones. Imminent danger, however, lurks in the pathway of the one who denies or procrastinates obedience to the call of God. To put off some preparation is unwise. Under the old covenant the sin of presumption in its effect was almost identical to the sin against the holy spirit under the Gospel. Therefore, the only sure and consistent course for men to adopt is to act promptly, placing themselves upon the side of safety at the first opportunity. But of the two classes, those who say they will and do not and those who say they will not and do, the latter is the more laudable. It may be well to promise, but deeds, not words and wishes, must be the watchword of our welfare and ground of assurance. It is that one only who says ‘I will,’ and suiting his actions to his words rolls up his sleeves and busies himself in the work of the Lord that is justified by the Father. Idlers are not wanted in God's kingdom. There are already too many who play at religion; they do not seem to take the instruction of ‘Go work’ seriously. They wrook when it suits them (which is seldom) and do not work when it does not suit them. Some, too, wishing their own way, say, ‘I'll go tomorrow,’ but tomorrow may be too late to do the work God has for them to do. Today is the only time given us. Men who employ servants expect and demand of them honest service. They do not expect the work of today to be put off until tomorrow. God cares absolutely nothing for our professions of piety; the showy religion that imposes on men is an abomination in the sight of God. He looks for fruit in deeds of service all else is but a mass of worthless leaves. The command is, ‘Go work today in my vineyard.’ How have we related ourselves to it?”

St. Paul's M. E.

Last night at St. Paul's Methodist Episcopal church the Rev. A. D. Batchelor preached the sixth sermon in a series on the conscience. The subject was “Conscience and Conscientiousness.” The text was Acts 24:16, “And herein do I exercise myself to have always a conscience void of offense toward God, and toward man.” He said in part:

“In another passage Paul said, ‘I have lived before God in all good conscience until this day.’ It is a bold statement. During his whole life, he would have us believe that

he had lived conscientiously. Some act merely for self-interest. They stifle the conscience to gain their end. Others do what is agreeable. Paul preferred to be disagreeable than to do violence to his conscience. Others act contrary to conscience on the ground of expediency. Paul's view was that it was never expedient to do a wrong thing.

“His aim was to keep this conscience pure—to be void of offense toward God and man. The phrase ‘void of offense’ literally means to be ‘without stumbling.’ When one does violence to his conscience he stumbles. The conscience was given as a light to keep us from stumbling. Straightforwardness and sincerity are therefore better than deceit and duplicity. He who uses the latter will soon stumble and fall into the pit which he has digged.

“That he might avoid a fall Paul tells us he ‘exercised’ his conscience. The word indicates painstaking effort. It literally means to ‘go into training.’ It has reference to the strenuous training of the athlete. Paul then fought the stains from his conscience as the gladiator fought weakness in his physical frame. He was careful to maintain such conscientious relations with God and man that his action always would be above reproach.

“It is a great thing to live conscientiously. He who does so will not conceal his sin, but will be open faced in all of his living. But one may be conscientious and yet be wrong. But the fact that conscience is to be exercised is evidence that it is improvable. He who exercises his conscience in the search for more light will not long remain in the dark. Paul tells us that when he persecuted the Christian church he did it in good conscience. But keeping his conscience in healthy exercise he soon saw the evil of such a course.

“There is only one way by which the conscience may become truly void of offense. It must have a clear discovery of the rule of duty. We make his discovery in Christ. This is where Paul got his moral bearings. It is also from Christ that we must get the light to lighten our pathway in all of our conscientious living.”

Notice to Contractors.

Notice is hereby given that the Board of Commissioners of the County of Rush, and State of Indiana, will receive sealed proposals at the Auditor's office up until the hour of two o'clock P. M. on

Tuesday, July 7th, 1914,

for the construction of a macadam road in Center township, Rush county, Indiana, known as the Walter Bitner, et al road.

Road to be constructed according to plans and specifications now on file in the Auditor's office.

All bids must be accompanied by bond double the amount of the bid.

The Board reserves the right to reject any and all bids.

Witness my hand and the seal of the Board of Commissioners of Rush County, Indiana, this 13th day of June, 1914.

KILLED BY A MOSQUITO

Exactly — there are hundreds of deaths each year that can be directly or indirectly traced to the simple little bites of mosquitoes. These little pests carry and spread disease. It's not so much the sting of their bite as the dread of infection. Therefore you should take extra precaution to treat mosquito bites as being more than mere bites.

Penslar Skeeter Dig

not only allays the itch and sting, but sterilizes the part affected because of its antiseptic and healing properties. Used as a protection from the effect of mosquito bites, this lotion becomes doubly valuable. Put a bottle of it in your grip. --

UNIFORM SYSTEM OF TRAINING

Urged for Sunday Schools by Speaker at International Sunday School Convention in Chicago

IT CLOSES TOMORROW NIGHT

Booker T. Washington Will Deliver Principal Speech Tonight—Many Conferences Held

(By United Press.)

Chicago, June 29.—Methods of training children in Sunday school and advancement of Sunday School work in foreign countries were the two important subjects to be considered when the International Sunday School Association resumed its sessions in Medinah Temple today. Rev. Franklin McElfresh, superintendent of the teachers' training department of the association, outlined to the delegates a nation-wide system of religious training, beginning in the Sunday School, and standardized, as far as possible, for use in schools of all denominations. Bishop James F. Adkins, of Waynesville, N. C., spoke on the relation of the Sunday School to the home and urged the necessity of home training to supplement the religious instruction in the Sunday School.

A series of conferences, one for Italian Sunday School workers, will be held tonight. The principal meeting in the Medinah Temple, will be addressed by Booker T. Washington, who will speak on the Sunday School and the negro.

Rev. William A. Brown, superintendent of the mission department of the association will tell of the mission work in the Philippine Islands at a forenoon meeting tomorrow. Informal talks will be made at the afternoon session by Bishop J. C. Hartzell of Africa; E. K. Warran of Three Oaks, Mich.; H. J. Heinz, of Pittsburgh; J. W. Kinnear of Pittsburgh; Rev. N. Williams of Portland, Ore., and Frank L. Brown of New York.

The closing session of the seven days' convention will be held in Medinah Temple tomorrow night when Dr. J. A. MacDonald, editor of the Toronto Globe will speak on the “Conquest of North America.”

The Awakening of Shoe Pride is often “the beginning of wisdom” in matters of Dress.

And, until you show invariably, good taste as to foot wear, you will not impress anyone as being a careful dresser, or as one who knows the real value of clothes.

This week will be the biggest week of the year for Rushville, and with a pair of our shoes you will begin, properly, to have and develop “shoe pride.”

We are offering Special Values in both High and Low Shoes. Come and see them.

WEBER'S BAND HAS A SOLOIST

Miss Wilmina Hannamann of Louisville Will Appear With Premier Musical Organization at Chautauqua.

A SOPRANO WITHOUT A PEER
Famous Band, Now Entour, Opened Season at Cincinnati Zoological Garden and Won Praise.

Miss Wilmina Hannamann, considered one of America's greatest band soloists, will be the soloist with John Weber's band when it appears here at the Rush county chautauqua, Wednesday, August 5 for two concerts, one in the afternoon and one at night. Miss Hannamann's home is in Louisville, Ky.

Miss Hannamann is a soprano of some merit. Last year she sang a week's engagement at Luna park, Cincinnati with Weber's band, and the Cincinnati newspapers praised her highly. One musical critic says:

"During the prosperity celebration Miss Hannamann has been heard by thousands. This week those who heard her last week will probably wish for the opportunity again, and then again. Those who have not heard her realize that they have missed a treat and will be quick to accept the opening that is offered. Cincinnati for more than a quarter of a century has been recognized as the musical center of the United States. Contributing as much as any other one element to the fame of the queen city is John C. Weber's military band. His is the prize band of America, having won that distinction in two national contests and Mr. Weber is prepared to defend his title at any time or place. The band is now en tour. It started the season at the Cincinnati Zoological garden in Cincinnati and won merited praise from the newspapers of Cincinnati. Their comments which follow reflect the sentiment of Cincinnati people in regard to the band:

Cincinnati Enquirer—"Played with splendid precision, and the round, beautiful tone quality that has made the organization famous, John C. Weber and his band delighted two immense audiences at the Zoo yesterday. The excellence of the performance compelled approval from the most exacting lovers of band music. The splendid quartette of singers made a great hit."

Cincinnati Commercial Tribune—"John C. Weber's band was heard at its best yesterday. A more fashionable or a more gorgeously dressed assemblage has seldom assembled there to hear Conductor Weber and his picked musicians play with a finish and beauty and dash that is absolutely admirable. It was a parade of fashion and a feast of music combined."

Cincinnati Times Star—"John C. Weber's prize band played to two large crowds at the Zoo yesterday afternoon and night. It was as usual a dress parade and Weber's organization was up to its usual standard, which means to say that it is unsurpassed anywhere."

Cincinnati Post—"John C. Weber's band, Cincinnati's own splendid organization, took care of the musical part of the day's entertainment at the Zoo and every number on the afternoon and evening program was real music. Weber's selections are termed 'popular' in the best sense of the word, in that they comprise not only the pieces of the hour, but the standard compositions that the people want to hear, and in a way that appeals to the best taste of all classes."

See fall and winter samples now on display at The Hendricks Co., tailors, West Second street. 9212

VILLA SENDS ULTIMATUM

Demands Carranza Divide or He Will be Independent.

(By United Press.)
Juarez, Mexico, June 29.—Villa has sent ultimatum to General Carranza demanding he be given his share of the ammunition recently imported at Tampico, it was reported on good authority today. In case the demand is refused, it is said Villa will set himself up as an independent leader.

Following news that Federals evacuated Aguas Calientes without a fight, Villa returned to Torreon last night. If the new breach with Carranza is healed, he will continue his campaign against Queranaro and later against Mexico City.

LATEST WAY TO DANCE IS JUST TO CANTER.

Masters Put Ban on Wiggle, Trot and Dip and Favor the Wave.

Down with the "lame duck" and the "horse trot!" The "canter" is the thing. The national dance masters in convention at Cleveland, O., decreed it so.

According to the dancing masters, the new dances will work a change in the styles for women's gowns. The new steps will smack of the minuet and other old fashioned dances and will result in the elimination of the narrow skirts.

The "canter" is the opposite of the "lame duck," in which the duck is done by bending or dragging the man's right leg and his partner's left one. To canter the man rises on the ball of his left foot and his partner on the left foot, giving a syncopated effect to the dance on every other step. It's fitted either to the onestep or the hesitation.

The dancing masters also announce they are getting close to a solution of the problem of eliminating the wiggle and the dip in their efforts to tame down the new dances. The dancers hereafter will wave instead.

"The wave is pretty and graceful," said B. F. Wood of Chicago, in charge of the elementary ballroom work at the convention. "The wave is obtained by a cross step with the feet. The body just naturally waves by being drawn slightly to the side to follow the foot that is extended."

As denatured by the dancing masters devotees of the tango and the maxixe will hardly recognize those dances. Ten steps of the tango as presented and five steps of the maxixe received the seal of approval, but there's nothing sensational left in the dances. The maxixe steps were accepted only under the agreement that they were to be used in combination with other steps to suit each dancing master.

THE CORONATION STONE.

Historic Reasons For Veneration of Relic Damaged by Suffragettes.

The partial success of the suffragette attempt to blow up England's ancient coronation chair has been followed by an outbreak of public indignation similar in its intensity to that which would follow an effort to destroy our own Liberty bell with an explosive. Not even the crown jewels in the Tower are so intimately involved with the story of English sovereignty and the tradition of the divine right of kings since David of Israel.

The chair of oak contains the stone of Scone, which Edward I. brought from Scotland in 1297 in token of the subjugation of that country. This stone was the emblem of power of the native rulers of Scotland. Legend has it that it was used by the patriarch Jacob for a pillow. It is more than possible, says the Philadelphia Ledger, that it is the stone on which the dying head of the sainted Columba rested in the abbey of Iona. It is a piece of sandstone similar to the characteristic formation of the west coast of Scotland. From the time of Edward I. every English monarch has been crowned in this chair.

From the account of Adam, the king's goldsmith, in 1300, it appears that the chair originally was to have been cast in bronze. Royal thrift changed the plan, and the woodwork cost 100 shillings. Master Walker, the king's painter, made it instead. Early in the nineteenth century the "old crockets and turrets at the back were sawn off," and the design of the back has been so often varnished that only a part of the sovereign's figure remains, the lion on which his feet rested having disappeared. The lions under the chair itself are modern and were regilded for the coronation of Edward VII.

The High Cost of Compliments.
"You have a fine cow, madam," said a well dressed stranger to Mrs. Mary Cammer of Mount Vernon, N. Y.
"Indeed, she is all of that. Her milk is half cream," answered the woman.
The young man patted the cow and, picking up some grass, thrust it under the nose of Mrs. Cammer—not the cow. The woman lapsed into unconsciousness. When she came to \$300 she had in her waist was gone. A handkerchief soaked with chloroform lay on the grass.

MAY ALTER THE MAP OF EUROPE

Assassination of Heir to Throne of Austria-Hungary, and His Wife Sunday Complicates Affairs.

EMPEROR FRANZ JOSEF FEEBLE

Archduke Franz Ferdinand and Duchess of Hohenberg Shot as They Rode in Carriage.

(By United Press.)
Vienna, Austria, June 29.—The map of Europe may be altered by the assassination of Archduke Franz Ferdinand, heir to the throne of Austria-Hungary, and his wife, the Duchess of Hohenberg. Gravest fears are entertained that the aged emperor, Franz Josef will not survive the shock.

The emperor looked careworn and feeble when he arrived here today. In case of his death Archduke Charles Franz Josef, who is but 26 years old and not regarded as a strong man, would succeed him. Scores of arrests have been made of persons suspected of complicity.

The archduke and his wife were assassinated at 11:15 o'clock Sunday morning at Serajevo, Bosnia, while driving from a railroad station to the city hall where they were to attend a celebration.

The royal carriage had just started away from the station when a journeyman printer, Pierre Gabrinovic, hurled a bomb at the carriage, injuring six persons, all members of the royal party.

A young Serbian student named Prinzip, an accomplice of Gabrinovic, raised a revolver half an hour later and fired several shots at the

Archduke and Archduchess, each of the bullets striking a vital spot.

The Archduke was shot in the head and the Duchess in the abdomen. They were carried into the palace, where they died within a few minutes.

Those of the throng nearest to the two assassins stood paralyzed for a moment after the explosion and shots, and then, before the smoke cleared away, flung themselves upon Gabrinovic and his accomplice, who were trying to make their escape under cover of the confusion.

The two men were thrown down and men and women tried to lynch them.

AN ELOPEMENT REPORTED

Ester Naden, However, Said to be With Former Rushville Woman.

Reports were circulated here today that Esther Naden, age seventeen, daughter of James Naden, had eloped with Alfred Bada, who had charge of the fireworks at the carnival here last week and who was to give the Fourth celebration here, but they were unconfirmed. Mr. Naden received word his daughter was at the home of a former Rushville woman in Indianapolis and he went there about noon to make inquiry. Mr. Naden telegraphed many places to stop issuance of a marriage license. It is not known that Bada and the girl left together.

The funeral services of Patrick Hayes will be conducted Tuesday morning at ten o'clock in the Catholic church by the Rev. M. J. Lyons. Burial will take place in Calvary cemetery.
